THE HIGH PRICE YOU PAY FOR AVOCADOS SHOULD SUGGEST TO YOU THAT THERE IS BIG MONEY IN GROWING THEM. There is—\$2,000 net per acre is easily possible and some growers are net double that. Avocados are the highest priced fruit grown. Here is one fruit we can never have overproduction of for there are so few localities where they can be grown on a commercial basis. Every \$1,000 invested in an avocado orchard will be worth \$3,000 on a 10% net income basis, in 3 years and will show a net income some return of at least 30% on money invested and your investment is just as safe as money in the bank. We will care for the orchard for you if you don't want to live on it. Every person with money to invest owes it to themselves to investigate this. In checking the number of sales in Torrance Stores last Saturday, it is conservatively estimated that the Special "Welcome Woolworth" edition published by the Torrance Herald and the Lomita News brought 5000 Buyers to Torrance last weekend.

When an institution like the F. W. Woolworth Company with 1627 stores relies EXCLUSIVELY on NEWSPAPER ADVERTISING to attract buyers, it is significant of the importance of NEWSPAPER ADVERTISING over all other methods of developing business.
